

Biomatics Hackathon Planning & Strategy

1. When?

Conduct 6–8 weeks after club launch, ideally in September–October or February.

2. How many PS?

Keep 4–5 high-quality problem statements for the first edition.

3. How are we judging?

Judge based on innovation, technical implementation, feasibility, teamwork, and presentation.

4. Any prizes?

Recommended prize pool: ■10k–15k for the first intra-IITG hackathon.

5. Base deadlines?

Use a 5–6 week preparation timeline with launch, reminders, registrations, screening, and execution.

6. Any name?

Recommended names: BioHack IITG, BiomanticsX, HelixHack, BioVerse.

7. Will this be recruitment?

Indirectly yes — it helps identify active and skilled students.

8. Budget?

Estimated budget: ■15k–40k depending on sponsorship and scale.

9. Target audience?

Biosciences, CSE, AI/DS, Design, ECE, and startup-oriented students.

10. Need help from MTech/PhD people?

Yes — for mentorship, judging, technical guidance, and credibility.
